Could Get.

FAVORABLE REPORT NOT PROBABLE

people Who Come and Go—Brief Brevities
of Interest to All Readers
of The Globe.

THE GLOBE learns that in the event
of the Watson bill passing and becoming
a law, W. Duke, Sons & Co., will simply
transfer their buyers to Virginia, and let
North Carolina go. The North Carolina
farmer will then haul his tobacco about
five times further and get no more for it.

The great "trust" which is not half so
vicious as a thousand other things in
this state, will continue at the old stand
and do business—with North Carolina
farmers, but in Virginia.

There will be a crowd of people in a
dozen towns with business stopped—
there will be nothing in this tobacco dis-
trict for them to do.

A message at 5:30 reads:

RALEIGH, Feb. 28.—[Special]—Watson
bill is raising Cain. There was a big
fight before the committee yesterday and
to-day. Many interested men from all
over the country are here fighting it. It
is not yet reported to the house. A
favorable report is not probable.

The house voted to cut the state guard
appropriation one half to day. The six
per cent interest bill tabled and of course
lost.

LIVE LOCAL LINKS.

The Day's Record of Current Events in
the City and Vicinity.

—The rain brought in large quantities
of tobacco and the warehouse floors are
all covered to-day.

—Col. Dr. Johnson's rooster powder
laboratory is still running and we fear
never will be caught.

—Mr. and Mrs. Zan Vickers lost a lit-
tle son, between three and four years
old, this morning from measles.

—Owing to the inclemency of the
weather there will be no services to-
night at the Presbyterian church.

—Mrs. R. W. Bailey is quite sick and
unable to be at her post at the graded
school, where she is teacher of the fifth
grade.

—Col. W. H. McCabe says if Mars is in-
habited the citizens must come to his
office to get insured as he is pressed for
time and cannot call on them.

—Married in East Durham, Sunday, at
the home of the bride's mother, Mr. Mel-
vin Strickland to Miss Lela Faucette,
Rev. L. L. Johnson officiating.

—The lecture at Stokes hall this even-
ing will commence at 8:30 o'clock sharp,
and people who want to enjoy the talk
in its entirety must be in their seats at
that hour.

—The weather should be no obstacle
in the way of attending the lecture this
evening at Stokes hall. It will be both
entertaining and instructive and none
should miss it.

—Col. Dr. Lynch claims to be a hum-
mer with a spike tailed coat. We are
not prepared to admit as much, he may
be a hummer, but if he has a spike-tailed
coat we have never seen him wear it.

—Col. L. G. Cole will claim the \$250,
000 offered by the Australian govern-
ment for the extermination of rabbits.
He says a little of his choice scotch snuff
sprinkled on their left feet does the work.

—Mr. Town Clerk Woodward will to-
morrow at 12:45 o'clock recite from Trin-
ity tower, "The Rev. Gabriel Tucker,"
and the public are cordially invited, rain
or shine, as this will positively be his last
appearance.

—The cold damp spell, while it is tough
on the fellow who is offering summer
goods, is a sweet boon to the friendly
coal man who can thus get another
whack at unfortunate customers with a
bank account and the rheumatism.

—The Durham Daily Sun is four years
old—and is a paper that should receive
patronage from our people. Jim Robin-
son has howled for Durham, and the peo-
ple should howl for him. The Sun is a
sprightly five-column evening paper—35
cents a month.

—The report that Mangum street was
washed away in the flood last night is
denied by Colonel Tom Cheek who was
seen at 9 o'clock this morning floating
up town on a life preserver, his boat
having run aground on the mud bar just
below Howerton's machine shop.

—Mr. Seban Watts, living about five
miles from Durham, had his smoke-house
broken into a few nights ago and all his
hams stolen. The decided preference for
hams, as manifested in the numerous
smoke-house robberies lately, would in-
dicate that a devilish ham factory was one
of the enterprises booked for the coming
spring.

Host (a trifle nervous about the effect
of his guest's wooden leg upon the pol-
ished floor)—Hadden't you better come on
the rug, major? You might slip out
there, you know.

The Major—Oh, don't be afraid, my
boy. There is no danger. I have a nail
in the end of it.—New York Ledger.

A DEAD HORSE.

Mr. W. H. Osborn Sustains a Serious Loss
in Horse Flesh.

The Greensboro Record says: One of
W. H. Osborn's fine horses died with colic
last night. He was all right at 12 o'clock
yesterday and was fed with the other
horses at Vanstony's stables. About 3 he
was taken sick and Veterinary Surgeon
J. M. Stewart and his brother worked
with him all the afternoon and at night
until they saw there was no chance for
him.

His sufferings were terrible and while
relief was afforded, it was only temporary.
Not long ago Mr. Osborn purchased
this one and a mate, giving \$900 for the
pair. They were beauties, too.

The Handsomest Lady in Durham
Remarked to a friend the other day that
she knew Kemp's Balsam for the Throat
and Lungs was a superior remedy, as it
stopped her cough instantly when other
cough remedies had no effect whatever.
So to prove this and convince you of its
merit any druggist will give you a sample

To the Public.
Having located in Durham to practice
medicine and surgery, I take this method
of informing the public of same; and that
I am also especially prepared to give pa-
tients who are suffering from diseases of
the eye, ear and throat special treatment.

More About the Whiskey Bill in and
Around the Place of Hickstons,
Near Durham.

RALEIGH, Feb. 28.—[Special]—After
my telegram to you yesterday the judi-
ciary committee was addressed by a large
number of gentlemen representing every
branch of the tobacco question, farmers,
manufacturers, leaf dealers, warehouse-
men and bankers, who transact business
in tobacco towns, and all were opposed
to Watson's bill. Winston sent a dele-
gation protesting against it also, though
I did not see them until late in the after-
noon.

The closing argument was made by
Col. R. B. Glenn, who completely knocked
out all of Watson's props. Watson at-
tempted to catechise Glenn, but the latter
replied to his questions, effectually
squelching him as he did Maryann Butler
in our city last fall. The bill will never
pass.

Last night the senate, after much dis-
cussion, passed the state banking law,
and then took up the special order, the
Hinton claim. It appears that one David
Hinton loaned the state \$12,000 during
the war, when there was no money in the
treasury to care for the insane. His heirs
ask for \$4,800, and after a heated debate
the bill passed its second reading.

The house considered a number of
measures last night, the session lasting
until nearly midnight.

Representative Thomas, of Davidson,
who had not made a speech previously,
made a great effort on the 6 per cent in-
terest bill. A number of members at-
tempted to ply him with questions, but
he refused to be interrupted, and rose
higher and higher, finally appealing to
the house as "fellow citizens," which
provoked such a roar of laughter that he
had to ring off.

The committee on propositions and
grievances reported unfavorably on Rep-
resentative Frank Fuller's bill yesterday
afternoon to lessen the prohibitory limit
from three to two miles, but he states
that he intends to attempt to have it put
in the omnibus bill during the closing
hours of the session, although the people
have asked to be let alone. He also
wants the law to effect Duke's Chapel
Methodist church, as well as Berea and
Yates Chapel Baptist churches, and the
people living in the former community
would do well to send in protest, as the
two latter churches have done, if such is
their wish.

Judge Henry H. Goldsborough, Balti-
more, Md., says: It gives me pleasure to
recommend Salvation Oil to one suffer-
ing from rheumatic or other pains."

An Important Difference.

To make it apparent to thousands, who
think themselves ill, that they are not af-
fected with any disease, but that the sys-
tem simply needs cleansing, is to bring
comfort home to their hearts, as a costive
condition is easily cured by using Syrup
of Figs. Manufactured by the California
Fig Syrup Co.

Take Notice!

Eddie Freeland, my son, under age, has
run away from me, and is being harbored
by other people. I hereby warn the said
parties not to harbor him nor encourage
him. I have his dying mother's will and
request.

During the month of February I bought
one bottle of B. B. B. for my four-year old
boy, who had what doctors term hereditary
blood poison, and to my utter astonishment
one bottle cured him. In February my elder
son, twelve years of age, was literally covered
with ugly sores on his legs and a terrible
eruption on his head. He was cured with two
bottles of B. B. B. As a quick blood cleanser
it has no equal.

For several years I have been suffering
from a constitutional blood poison, which has
resisted the treatment of our best physicians,
and the use of the most noted medicines.
I was covered with a copper-colored eruption
all over my body and limbs, with loss of
appetite, excruciating in my back, aching of
my joints, general debility, emaciation, falling
off of my hair, sore throat and great nervous-
ness. I became incredulous, but being told
that B. B. B. was a sure enough blood puri-
fier and that it did not require a patent to use
a gross before he was cured, I commenced its
use. Within two weeks' time I felt improved.
I have taken about ten bottles and feel as well
and sprightly as any man. My appetite and
strength have returned and my hair does not
fall out. I do not hesitate to say that B. B. B.
has no equal as a general blood purifier, and
and any one will use only one bottle will be
convinced that it has no equal in these parts.
I still continue its use, as it is a splendid tonic
and keeps my system in a fine condition. You
have the liberty to direct any sufferer to me
in person.

FOOD FOR REFLECTION.

Perhaps you think that no reflec-
tion is necessary when it comes to
the purchase of groceries. The truth
is that, while it is easy to be suited,
it is just as easy, and perhaps a trifle
easier, not to be suited at all. There
is one effective precaution which the
buyer can always take, and which
will make the rest plain sailing.
Take the precaution of buying at the

right place if you want to avoid all sorts of unpleasant complications.
At the right place quality is right, and prices are right. We can give
you everything, except one thing—fault to find. Just now, we are calling
special attention to our line of Jellies, Preserves, Canned Goods, Plain,
Mixed and Sweet Pickles, Irish Potatoes for seed, and anything else kept
in a first-class grocery store at wholesale or retail. Satisfaction guaran-
teed or money refunded. Goods delivered free anywhere in the city. Call
